- **Attractive Features**
- **Energy Star Standards**

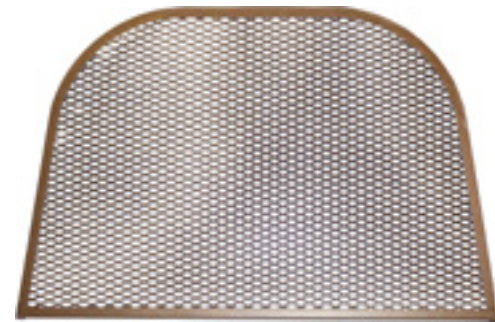

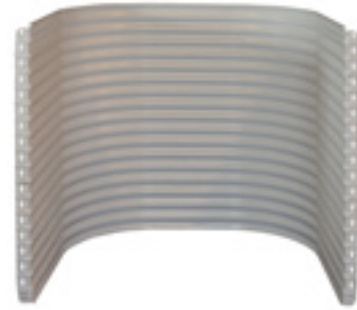

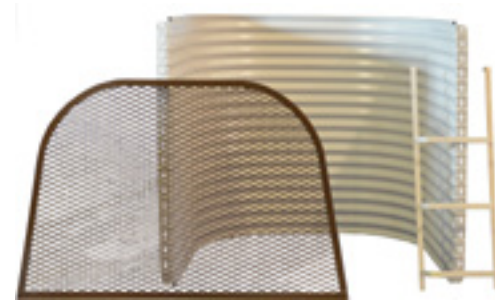

Let us brighten your basement!

Simply Egress Solutions™ Complete System

Code Compliant Egress Wells and Accessories

- 18 GA, G-90 galvanized mill certified base steel.
- White interior finish, with clear plastic laminate to protect and keep the surface clean.
- 48", 60" and 72" have rolled top and bottom providing additional strength and rigidity.
- Double slotted holes for safe and easy installation.
- Egress wells protected on pallet with 4"x4" blocks and foam padding to prevent jamming and protect finish.

Safety Grates

- Designed to keep people and pets out of the well and hold the weight of standard foot traffic.
- Easy to lift for fast and safe egress.

Safety Ladders

- Three and four rung ladders are designed to assist people in an emergency escape or egress. The ladder hangs on the back of the Egress Solutions Well and is required in area wells that are deeper than 44" per IRC 2015.

Window Well Covers

- Covers are designed to be placed on top of the safety grate to keep leaves and debris out of the well.

Simply Egress Solutions™ Vinyl Cast in Place Window

Versatile tie slots and lifting pockets built into the plywood brace.

Interior and exterior vinyl unit protected from concrete by tape.

The ready to pour Cast in Place Vinyl Basement Window comes protected with polystyrene and OSB board.

Available in clear glass and low E. Standard unit sizes are 4040 Egress (47-7/8" x 47-7/8") and 3220 (31-7/8" x 19-7/8").

The window includes a durable metal locking system, aluminum half screen with a white frame, insulated weather stripping, brass sash rollers, and weep holes. Both sashes are removable and replaceable.

No reusable pouring buck required!

Durable PVC welded frames, designed for strength and rigidity.

**Frame sizes available in nominal and full dimensions:
7-1/2", 8", 9-1/2", 10", 11-1/2", 12"**

Full OSB board reinforcement, to resist concrete pressure deflection and provide a full-face nailer capability to secure to forms and protects the sash and screen during the pour. Tie slots provide easy placement of the window when using a flat tie system. Multilingual Labeling designating top and bottom. Multiple exterior keyways to lock the window into the concrete.
